

Hot Glue Gun Safety Quiz

A score of 100% on this quiz is required before students may use a Hot Glue Gun in the Parish Episcopal School Design Den.
Be sure to check your score at the end of the quiz.

* Indicates required question

1. Email *

2. First Name *

3. Last Name *

4. Grade *

 Dropdown

Mark only one oval.

- ☐ 5th Grade
- ☐ 6th Grade
- ☐ 7th Grade
- ☐ 8th Grade
- ☐ 9th Grade
- ☐ 10th Grade
- ☐ 11th Grade
- ☐ 12th Grade

5. Which class is requiring you to take this quiz? *

⌵ Dropdown

Mark only one oval.

- ☐ MS Robotics
- ☐ US Robotics
- ☐ Parish Inc.
- ☐ 6th Science
- ☐ 8th Science
- ☐ CAD/CAM
- ☐ MAKE
- ☐ Rover
- ☐ Intro/Advanced Engineering
- ☐ Panther Tech
- ☐ Physics
- ☐ Independent Study/Want to hang out in the Den
- ☐ Comp Sci
- ☐ Sustainable Architecture
- ☐ Digital Media
- ☐ Boot Camp
- ☐ I C.A.N. Innovate
- ☐ 6th engineering
- ☐ 6th reverse engineering
- ☐ Option 20

6. True or False, upon discovering the condition of the power strip seen in the picture below the teacher did a "happy dance" celebrating this creative and innovative use for hot glue. *

Mark only one oval.

- ☐ True
- ☐ False

7. I should only use tools if.... (check all that apply) *

Check all that apply.

- ☐ I have scored 100% on my tool demonstration quiz.
- ☐ I have seen a teacher demonstrate the proper use of the tool.
- ☐ I have scored 100% on my tool quiz.
- ☐ I have teacher permission.

8. A student has instructor permission to use a tool. Before using the tool the student should... (check all that apply) *

Check all that apply.

- ☐ Put on proper personal safety equipment
- ☐ Ride up and down on their stool at least four times
- ☐ Tie back long hair
- ☐ Remove their tie
- ☐ Remove any dangly jewelry

9. If the glue sticks I have are too big for the hole on the hot glue gun I should... *

Mark only one oval.

- ☐ use a tool to trim it down until it fits
- ☐ sit and do nothing
- ☐ check in the hot glue stick bin to see if there are any glue sticks that will fit my hot glue gun
- ☐ trade my hot glue gun for one that will fit the larger hot glue gun stick

10. If the hot glue sticks I have are smaller than the hole on the hot glue gun I should *

Mark only one oval.

- ☐ use them any way their too small but they still fit
- ☐ sit and do nothing
- ☐ check in the hot glue stick bin to see if there are any glue sticks that are the correct size for my hot glue gun
- ☐ trade my hot glue gun for one that fits the smaller hot glue gun stick

11. True or False: Hot glue can cause burns. *

Mark only one oval.

- ☐ True
- ☐ False

12. True or False: Melted hot glue can soak through thin material and cause burns. *

Mark only one oval.

- ☐ True
- ☐ False

13. My class is over but another class is coming right after mine I should... *

Mark only one oval.

- ☐ leave my hot glue gun plugged in so it is ready for the other class.
- ☐ unplug my hot glue gun and put it away carefully. A hot glue gun left plugged in an unattended is a fire risk.

14. Which photo and explanation BEST describe the preferred and safest way to set-up a hot glue gun in the Design Den? *

Mark only one oval.

☐ Option 1 - I'm on the floor close to the outlet, mostly out of the way and I have hot glue gun is resting on paper.

☐ Option 2 - I carefully used an extension cord to reach from the nearest outlet and up on to the table. The cord for my hot glue gun is just hanging there but it seems safe as long as no one catches their foot on the extension and pulls the hot glue gun off the table.

☐ Option 3 - I'm working right by where the hot glue guns and extra glue is kept. There are globs of glue on top of the cart but who cares its card board and it looks like other people did it so it MUST be okay. Plus I'm super close to Mr. Cribbs if I need to ask a question.

☐ Option 4 - I have paper under my hot glue gun to catch any drips. I've plugged the hot glue gun into a power strip that is on top of the table so others can use hot glue guns on the table too. For extra safety I wrapped the power strip cord in case any one catches their foot underneath the hot glue gun shouldn't go flying.

☐ Option 5 - I have paper for my hot glue gun to catch drips and wrapped my extension cord around the table leg so the hot glue gun shouldn't fly off if someone trips.
